

Hymenoptera: Formicidae (Ants)

Ease of Encounter at
Brackenridge Field
Laboratory (2024)¹

DOLICHODERINAE

<i>Dorymyrmex flavus</i>	Common
<i>Forelius damiani</i>	Common
<i>Forelius pruinosus</i>	Uncommon
<i>Forelius mccooki</i>	Common

DORYLINAE

<i>Acanthostichus texanus</i>	Rare
<i>Neivamyrmex nigrescens</i>	Rare
<i>Neivamyrmex texanus</i>	Rare
<i>Syscia augustae</i>	Rare

FORMICINAE

<i>Brachymyrmex depilis</i>	Common
<i>Brachymyrmex patagonicus</i>	Common
<i>Camponotus americanus</i>	Common
<i>Camponotus decipiens</i>	Common
<i>Camponotus discolor</i>	Common
<i>Camponotus festinatus</i>	Common
<i>Camponotus pennsylvanicus</i>	Common
<i>Camponotus texanus</i>	Common
<i>Camponotus sansabeanus</i>	Common
<i>Colobopsis etiolata</i>	Rare
<i>Colobopsis impressa</i>	Rare
<i>Formica pallidefulva</i>	Rare
<i>Nylanderia terricola</i>	Common
<i>Nylanderia vividula</i>	Uncommon
<i>Paratrechina longicornis</i>	Common

PONERINAE

<i>Hypoponera inexorata</i>	Rare
<i>Hypoponera opaciceps</i>	Common
<i>Hypoponera opacior</i>	Common
<i>Leptogenys elongata</i>	Common
<i>Pachycondyla harpax</i>	Common
<i>Odontomachus clarus</i>	Common

PROCERATIINAE

Proceratium micrommatum

Rare

PSEUDOMYRMICINAE

Pseudomyrmex apache

Rare

Pseudomyrmex ejectus

Common

Pseudomyrmex gracilis

Common

Pseudomyrmex pallidus

Common

MYRMICINAE

Aphaenogaster texana

Common

Atta texana

Common

Carebara longii

Uncommon

Crematogaster laeviuscula

Common

Crematogaster minutissima

Rare

Crematogaster punctulata

Rare

Cyphomyrmex rimosus

Common

Cyphomyrmex wheeleri

Uncommon

Monomorium minimum

Common

Monomorium pharaonis

Rare

Mycetomoellerius turrifex

Common

Myrmecina americana

Common

Pheidole bicarinata

Common

Pheidole constipata

Common

Pheidole dentata

Common

Pheidole floridana

Common

Pheidole hyatti

Uncommon

Pheidole lamia

Uncommon

Pheidole metallescens

Common

Pheidole mera

Uncommon

Pheidole pelor

Common

Pheidole tetra

Common

Pogonomyrmex barbatus

Rare

Solenopsis geminata

Rare

Solenopsis invicta

Common

Solenopsis texana

Common

Strumigenys margaritae

Uncommon

Strumigenys membranifera

Uncommon

Strumigenys louisianae

Uncommon

Strumigenys silvestrii

Uncommon

<i>Temnothorax obturator</i>	Common
<i>Temnothorax subditivus</i>	Uncommon
<i>Temnothorax terrigena</i>	Uncommon
<i>Tetramorium spinosum</i>	Uncommon
<i>Tetramorium bicarinatum</i>	Rare

¹Common - species where it should be possible to locate multiple colonies within a day under appropriate conditions. Uncommon - Present but less easily found. Rare - Has been collected at BFL.

*This list is an active document that is only periodically updated on the BFL webpage. For a more frequently curated version go to: https://www.antwiki.org/wiki/Brackenridge_Field_Lab .
